### Nature’s own energy booster!

**Our product, which has been described as revolutionary, combines two nature’s miracles that grow in extreme conditions in different parts of the world: the noni fruit and the arctic lingonberry**

Research has shown that the amino acid compositions of noni fruit and lingonberries complement each other in an exceptional way. Together, they are more than the sum of their parts.

### Ingredients:

Noni powder, lingonberry powder, anti-caking agent (Magnesium stearate), rice flour, Hydroxypropyl methyl cellulose.

### Recommended daily dosage:

2 capsules with water. Contains 600 mg of noni powder and 200 mg of lingonberry powder.

### Food supplement:

The recommended daily dosage must not be exceeded. Food supplement must not be used as a substitute for a varied diet. The product must be kept out of reach of children.

---

**Noni fruit**

Already for thousands of years, Noni has been considered to be the most important health-promoting plant in ancient Polynesian culture.

Noni trees push their roots deep into lava, and acquire a unique composition of minerals from there. In our products, we only use noni fruit that has been hand-picked from trees.

This way, you can be sure that you are enjoying top-quality noni.

---

**Lingonberry**

The lingonberry is one of the wild-growing superberries of our Arctic nature.

Research on the health benefits of the lingonberry has been conducted in Finland already since the 19th century. Currently, the lingonberry is one of our most extensively researched berries.

There are research references and results about lingonberries containing A-type proanthocyanidine.

---

**Hand-picked, fresh noni fruit.**

**Lingonberries straight from the Arctic nature**

---

**Booster**

**noni fruit-lingonberry product**

35 g / 60 capsules

Noni fruit helps maintain the normal functions of the immune system. Lingonberry promotes the protection of cells from oxidation stress.
